• **Evaluation & Ceremony Hall:** 7F The Great Roots Summit Hall (All DEMO evaluation and the Award Ceremony will be held here)
• **Organizer:** NAPAI Project Office (National Agentic & Physical AI Initiative)

2. Finals Agenda

Time	Agenda Item	Teams & Description
12:30 - 13:00	Participant & Jury Registration	On-site registration, projection equipment & network testing
13:00 - 13:10	Opening Remarks & Jury Introduction	Opening by Project Investigator Prof. Chia-Hui Chang, Co-Investigator Prof. Min-Yuh Day & Jury Introduction
13:10 - 14:20	NAPAI Agentic AI Competition (First Half DEMO Evaluation)	Teams 1~7 (9 mins per team: 5 mins DEMO + 4 mins Q&A) Teams: 1. thon / 2. 火矩方舟 / 3. Loopy / 4. 補助同行 / 5. 關東組 / 6. AgentLab / 7. 牛排群組
14:20 - 14:40	Tea Break	Conference Refreshment Area
14:40 - 16:10	NAPAI Agentic AI Competition (Second Half DEMO Evaluation)	Teams 8~16 (9 mins per team: 5 mins DEMO + 4 mins Q&A) Teams: 8. 五夠補 / 9. 讀伴 / 10. 就是藥對決 / 11. NOVA5｜新星 5 號 / 12. 你愛我對不隊 / 13. INMU KING / 14. FEAF / 15. 20 分鐘燒完 token / 16. PINWISE
16:10 - 16:15	Intermission & Score Aggregation	Jury score calculation, deliberation, and final ranking confirmation
16:15 - 16:30	NAPAI Competition Award Ceremony	Jury summary feedback, Award Ceremony for both tracks, and group photo

3. Submission Deadlines & Compliance Regulations

• **Registration & Captain Remittance Form Deadline:** Wednesday, November 11, 2026, by 23:59.
• **Final Work Submission Deadline:** Friday, November 13, 2026, by 23:59 (Late submissions or modifications will NOT be accepted).
• **Adherence to Official Guidelines:** Final presentation slides upload, Demo video specifications, code disclosure, and security/ethics rules MUST strictly follow the official rules announced on the NAPAI Competition website.
• **Strict Anonymity Rule:** To ensure objective and fair evaluation, ALL final uploaded documents (including slides, Demo screens/videos, and README technical files) MUST NOT display any school logos, university names, or advisor names.
• **Handling of Violations:** Teams must ensure data de-identification and cybersecurity compliance. Any violation of competition regulations, plagiarism, IP infringement, or failure to comply with anonymity rules will empower the organizer to disqualify the team from the Finals and revoke any awards or associated rights.

4. Transportation & TAAI Free Shuttle Information

• **Free Shuttle Bus (Pre-registration Required):** In conjunction with TAAI 2026, free shuttle service is provided. Please pre-register via the official link to assist in vehicle dispatch.
• **Official Shuttle Registration Link:** https://aicp.ntpu.ai/events/taai-2026.
• **Driving Personally:** Parking is available within Great Tree Forest Spa Resort. Please inform the entrance staff that you are a TAAI 2026 participant.

NAPAI 2026 Agentic AI Innovation Competition for Campus Applications – Finals FAQ

This FAQ compiles questions raised by participating teams and the organizer's responses, for the reference of all finalist teams.

I. Final Presentation and Report

Q1: Does the final presentation still need to follow the 12-slide limit from the preliminary round?
A1: The final presentation is mainly for the on-site oral presentation. Teams should plan the content and number of slides based on the official presentation time, so that the content is complete and fits within the time limit.

II. Supplementary Materials and Document Submission

Q2: May we include QR codes or links in the slides that lead to supplementary materials, such as live demos, technical documentation, test results, or FAQs?
A2: There are no restrictions on the format of supplementary materials. Teams may include QR codes or links in their slides as needed for the judges' reference. However, all materials must be de-identified.

Q3: Do we need to reorganize the "Field Requirements and Validation Data" already submitted in the preliminary round for the finals?
A3: We recommend combining the validation data submitted in the preliminary round with the new validation results for the finals, so that the field validation process and outcomes at each stage are fully presented.

Q4: Should the "Field Requirements and Validation Data" and the "Agent Evaluation Data and Operation Traces" be submitted separately?
A4: Please combine both into a single submission.

Q5: Is there a required file format or page limit for the final submission materials?
A5: There is currently no required file format or page limit. To ensure consistent presentation and readability, we recommend submitting in PDF format.

Q6: Is there a required file naming convention for the final submission materials?
A6: Please follow the same file naming convention as in the preliminary round.

III. Demo and On-site Equipment

Q7: Should the five-minute on-site demo focus mainly on live operation of the prototype?
A7: There is no required demo format. Teams may decide the balance of slide explanation, live operation, and video presentation, choosing the approach that best suits their project.

Q8: If our project is operated mainly through a mobile interface, may we use a pre-recorded video for the demo?
A8: Yes. If your project involves a mobile interface, we recommend pre-recording a video of the actual operation and playing it during the presentation to ensure a smooth demo.

Q9: Will teams be allowed to switch to their own devices on-site for the demo?
A9: Due to on-site equipment and procedural considerations, the organizer will not provide support for switching devices on-site.

Q10: What are the control rules for the live presentation and demonstration?
A10: Each team is allocated a total time of 9 minutes, which includes a 5-minute oral presentation and a 4-minute combined Q&A session (1 minute for the judges' consolidated questions and 3 minutes for the team's consolidated answers). When the 9-minute presentation time is up, teams are kindly requested to stop answering, leave the stage, and make way for the next team.

Reminder on Final Presentation Materials and Files:
All files required for the on-site presentation and demo on the day of the finals will be downloaded by the organizer directly from the competition platform. Teams must make sure that all uploaded files are complete, open properly, and are the final versions, and that the slides match what they plan to present on the day. Missing files, incorrect versions, or content errors may affect your team’s standing in the competition.
